

Global Scan eCabinet *Connector:* Enhancing your Productivity

Introducing **GSeC**, the **Global Scan** to eCabinet **connector**

GSeC facilitates indexing of documents sent to the eCabinet by any of Global Scan's supported Multi-functional Peripherals: "MFPs."

Scanned documents are easily indexed using the MFP's user-friendly display, and moved to the appropriate eCabinet folder. Index key search values are quickly entered.

Key Benefits:

- Integrates with existing Global Scan installations
 - Leverages the strengths and versatility of the eCabinet
 - Combines the strengths and functionality of two award-winning products
-
