

JeCL: MFP to eCabinet Connector: Enhancing your Productivity

Introducing **JeCL**, the **Ricoh MFP to eCabinet Connector**

JeCL facilitates indexing of documents sent to the eCabinet by any supported Ricoh ESA Multi-functional Peripheral: "MFP."

Scanned documents are easily indexed using the MFP's user-friendly display, and moved to the appropriate eCabinet folder. Index key search values are quickly entered.

Key Benefits:

- Supports automatic indexing / separation of scanned documents using Bar Coded Separator / Cover Pages. Requires optional **HiDE** Server Add-on.
 - Integrates with existing installations
 - Leverages the strengths and versatility of the eCabinet and the cost-effective operations of Ricoh MFPs
 - Combines the strengths and functionality of award-winning products
-
